

Job Title: Senior Front End Developer

Job Experience: 3-7 years

No. of Requirements: 1

Location: Gurgaon

Job Description: FreightMango is a young company that is addressing one of the largest industries in dollar terms and by volume of transactions – International Shipping and Logistics. We are a start-up that is backed by an International Private Equity firm with a successful portfolio of investments in large profitable companies worldwide. We have multiple products across B2B/B2C marketplace, B2B SaaS and CRM. We currently have opening for a product designer role that will help us scale and manage our product spread across current business lines.

The ideal candidate will be responsible for designing, developing, testing, and debugging responsive web and mobile applications for the company. Using JavaScript, HTML, and CSS, this candidate will be able to translate user and business needs into functional frontend design.

Responsibilities

- Designing, developing, and testing UI for mobile and web applications
- Build reusable code and libraries for future use
- Accurately translate user and business needs into functional frontend code
- Determining the structure and design of web pages.
- Ensuring user experience determines design choices.
- Developing features to enhance the user experience.
- Striking a balance between functional and aesthetic design.
- Ensuring web design is optimized for smart phones.
- Building reusable code for future use.
- Optimizing web pages for maximum speed and scalability.
- Utilizing a variety of markup languages to write web pages.
- Maintaining brand consistency throughout the design.

Qualifications

- Bachelor's degree or equivalent in Computer Science
- 3-7 years' experience in frontend development
- Familiarity using Scrum/Agile development methodologies
- Experience building object-oriented web applications in JavaScript, HTML5, and CSS3 and JQuery
- Understanding of Server-side CSS
- Experience with graphic design applications such as Adobe Illustrator.
- Experience with responsive and adaptive design.
- Understanding of SEO principles.
- Good problem-solving skills.
- Good interpersonal skills.
